

Amal Alliance, an international non-profit organization committed to fostering education and well-being among marginalized communities, is thrilled to be part of the prestigious Clinton Global Initiative (CGI) Greenhouse organized for the second consecutive year. As we embark on this journey, Amal Alliance is ready to make an even greater Commitment to Action on pressing issues such as educational change, mental health equity, and creating an inclusive society.

Selected from a competitive pool of entrepreneurs and startups, Amal Alliance joins a diverse cohort of visionaries recognized for their innovative approaches to addressing global challenges. This recognition comes with the opportunity to secure vital resources, including a generous \$75,000 grant, which will enable three social ventures to expand their mission and reach to even more underserved populations worldwide.

During the CGI 2023 Meeting, Amal Alliance will have the platform to showcase our initiatives and projects, presenting them to a distinguished panel of judges comprising representatives from global foundations and venture capital firms. Beyond the financial support, CGI Greenhouse is designed to facilitate invaluable social capital connections, fostering partnerships that will help elevate solutions to new heights.

Our inclusion in CGI Greenhouse reinforces Amal Alliance's commitment to driving positive change through intersectional and strategic approaches. By collaborating with Fortune 500 companies, private foundations, family offices, investors, and funders, Amal aims to amplify the impact of our initiatives, ensuring that education and well-being opportunities are accessible to all, regardless of their background or circumstances.
